RAYYAN ALBADRI

SOFTWARE ENGINEER

rayyanalbadri023@gmail.com | LinkedIn Profile | GitHub | Omani - Muscat

SUMMARY

Software Engineering graduate from UTAS-Muscat, focused on full-stack web development with Next.js, React and Node.js, plus Flutter for mobile. Currently a Software Engineer in Ebanah's Training-to-Employment Program, building an HR, payroll and accounting ERP in English and Arabic with full right-to-left support. Experienced across the stack: user interfaces, REST APIs, MySQL and MongoDB databases, Docker and GitHub Actions CI/CD.

KEY COMPETENCIES

- Full-Stack Web (Next.js, React, Node.js)
- REST API Design & Integration
- Databases (MySQL, Drizzle ORM, MongoDB)
- Bilingual Arabic/English UI (RTL)
- Docker & GitHub Actions CI/CD
- Mobile Apps with Flutter & Firebase

EXPERIENCE

Software Engineer · Training-to-Employment Program **Jul 2026 – Present**

Ebanah LLC · Muscat

- Build the company ERP: HR, leave, payroll and Odoo-style accounting with 19 finance sections.
- Ship every screen in English and Arabic with full right-to-left support.
- Develop full-stack applications with React, TypeScript, Node.js and Express.
- Build REST APIs and manage MySQL databases with Drizzle ORM.
- Debug issues across APIs, databases, Docker and GitHub Actions CI/CD.

Software Developer Intern **Apr 2026 – Jun 2026**

Ebanah LLC · Muscat

- Built full-stack web applications with React and Next.js.
- Implemented CRUD operations over MongoDB and SQL databases.
- Designed and integrated RESTful APIs.
- Added automated email notifications with Resend.

Itqan Hackathon **May 2026**

Itqan Program · Ministry of Housing & Urban Planning · Muscat

- Developed a data synchronization solution for the Land Registry and the Real Estate Registry.
- Presented the proposed solution to the program panel.
- Qualified for the Ministry's 6-month paid training program; chose Ebanah's Training-to-Employment Program, which began in the same period.

Spark to Code Intern **Jul 2025 – Aug 2025**

Rihal · Muscat

- Tested APIs with Postman to understand request and response handling.
- Designed databases using Entity-Relationship Diagrams (ERDs).
- Built an expense tracking application in React.

EDUCATION

Bachelor of Software Engineering (UTAS-Muscat) - 2026
GPA: 3.15

CERTIFICATIONS

- Oracle Certification – Database Programming with SQL
- Cisco Certification – Networking Fundamentals

LANGUAGES

- Arabic — Native proficiency
- English — Advanced (spoken and written)

PROJECTS

HR & Payroll ERP – Ebanah LLC **Apr 2026 – Present**

- Company ERP covering employees, leave requests, payroll, expenses, tasks, shared files and a to-do list.
- Odoo-style accounting module with 19 finance sections.
- Fully bilingual English/Arabic interface with right-to-left layout.
- Built with React, TypeScript, Node.js, Express, MySQL and Drizzle ORM.

Wally – Expense Tracker for Oman **Jul 2026**

- Flutter app that reads receipts with ML Kit text recognition and records the merchant and total.
- Charts spending by category in Omani rials and includes an AI budgeting assistant (Gemini).
- Firebase Authentication and Firestore sync.

Registry Sync – Itqan Hackathon **May 2026**

- Proposed platform keeping the Land Registry and Property Registration systems in real-time sync through one unified database (Next.js, Node.js, PostgreSQL, PostGIS).

Rehlatuk Mobile Application **Dec 2025**

- Android travel planner (Android Studio) that suggests Omani destinations by interest, supporting Oman Vision 2040.
- Personalized itinerary builder, AI travel chatbot and Google Maps API navigation.

Online Food Ordering – Data Analysis (ML) **Oct 2024**

- Data cleaning, feature engineering and EDA with Pandas, Seaborn and Matplotlib.
- Feature selection and dimensionality reduction for machine learning.
